Secretary : Mr. G. Bertram Isaac.

## *Hon. Auditor :*

Mr. Ernest G. White, A.S.A.A., Incorporated Accountant,  
Bank Chambers, Lammas Street, Carmarthen.

## THE ANNUAL GENERAL MEETING.

---

**T**HE Annual General Meeting of Governors of the County Infirmary, Carmarthen, was held in the Guildhall, Carmarthen, on Thursday, 28th March, when the newly-elected President, Dr. Miles Phillips, Laugharne, was in the chair.

We are to-day presenting the 93rd Annual Report of the County Infirmary, Carmarthen. During the first six months of the year everything proceeded in the normal way. There was the increase in the number of patients in all branches of the work which we have been accustomed to expect and note in preceding years.

An interesting event during this period was the opening of the Mortuary Chapel. At the Annual Meeting two years ago an appeal was made for help to defray the cost of such a building. This help came through the efforts of lady members of the Management Committee and others who organised a "British Tea" for that express purpose, and thus obtained a sufficient sum to pay for the erection of the Chapel, which was dedicated at a Service conducted by the Lord Bishop of St. David's on June 27th. The Committee thanks all the ladies whose work brought about this satisfactory result, and also Mr. F. T. Brigstocke for his very active interest in the matter.

The outbreak of war in September necessarily affected our work as an institution. We, in common with Voluntary Hospitals throughout the country took our allotted place in the Emergency Medical Service Scheme which had previously been organised by the Ministry of Health for dealing with possible War Casualties. For this purpose we were graded a Class 1A Hospital. This has necessitated a considerable increase in the number of beds available, in the provision of which we are helped by the Ministry. As a normal matter of Hospital work this would mean overcrowding, and has to be regarded solely as an Emergency War-time Measure. At the outbreak of war we were instructed to discharge all patients who could safely be removed, and within a few hours 80% of the patients were taken to their homes. The organising of transport for this work was done by Mr. Frank Lowndes, to whom, and to those who sent cars to help, the Committee offers its sincerest thanks. After this was done urgent cases of illness and cases due to accident continued to be admitted, and by the end of October, as no serious emergency had arisen, and as it had been shown that the Infirmary could be evacuated very quickly in case of need, we were instructed to admit patients up to our normal capacity. At no time since the war has any part of our Out-Patient department been closed, nor has the work there been curtailed.

Lighting restrictions and the need for protective measures at vulnerable points, and the need for the securing of and the adequate safeguarding of necessary Hospital supplies has, of course, caused considerable expense to be incurred. The necessary arrangements for dealing with possible War-time casualties have been made under the most competent advice.

Owing to these abnormal conditions there is a decrease of 35 in the number of in-patients during the year. The number treated was 1,496. The average daily number of patients was 69.65, and the average stay of each patient was 16.99 days. The number of Maternity cases received during the year was 332, an increase of 74. A detailed account of the work done is given in a separate Maternity Report (by Dr. James).

We have hopes that in the near future we shall be able to establish a Midwives' Training School in the Maternity Unit.

The gift of an Iron Lung which was promised us last year, through the generosity of Lord Nuffield, has now been received and is available for patients requiring that type of treatment.

Full details of our financial position will be given in the Treasurer's report, but it is necessary to note here a certain falling off in some directions, e.g., in subscriptions from various Churches. We are grateful to those Churches who maintain that old Christian tradition of caring for the sick and ailing, but it is somewhat sad to note that many Churches in our area fail to send a contribution to such a philanthropic Institution as the only Hospital in their area, and also how some Churches have in recent years lessened their subscriptions. We wish to emphasise that the fact that the Contributory Scheme has meant so much to us does not mean that we can do without the help of donations and subscriptions. Apart from the usual running expenses of the Institution which are increasing year by year, we have to meet the costs of an inevitable expansion as time goes on. There are at least **three** ways in which we shall have to increase our expenditure in the future—

1. A larger and better Hostel provision for our Nursing Staff has become urgently necessary.

2. There remains the old part of the building which ought to be modernised in order to become efficient—our dream is that we shall celebrate our centenary in 1947 by seeing that work finally completed.

3. The old custom of free service given by Specialists in Voluntary Hospitals is gradually giving way in many parts of the country to arrangements for payment for their services to such Specialists. This is due to the growth of Contributory Schemes. This development is very likely to affect our position in Carmarthen in the coming years. All these are reasons for the continuance and if possible the increasing of the old custom of subscribing by individuals, Churches, and other organisations to the Infirmary funds. We sincerely hope that the decrease in this matter may be only temporary.

We desire once more to thank all who have helped during the year. The Honorary Medical Staff and Honorary Consultants, Subscribers, promoters of entertainments, Contributory Scheme Secretaries and Collectors, and also Contributors themselves, Linen Guild, Mrs. Preston, the "Inner Wheel," Carmarthen, the Women's Institutes, Members of the Red Cross and C.H.S.S. (surgical section), the Honorary Secretaries, Mr. J. Arthur Jones and Mr. John Saer; the Honorary Auditor, Mr. Ernest White, and especially the local Press for placing their weekly papers at our service.

A special word of thanks is due to the volunteers in our Blood Transfusion Service. They are always ready when called, and many during the year have, through being donors, saved the lives of many patients. Our service list is somewhat depleted, as many of our volunteers have joined the forces. We therefore appeal to ladies and gentlemen to join our service as soon as possible and so help us to continue this necessary branch of our Medical Service.

Our thanks are again given to the Matron, Sisters and Nurses for their continued devotion to their respective duties.

Last year we expressed our sympathy with Mr. Walter Lloyd on account of his long illness. This year we have to record our sense of loss at his passing. He had served the Infirmary for the long period of nearly 50 years, and from 1924 till 1933 he was Chairman of the Management Committee. We record our gratitude for such long and faithful service so readily and effectively given.

Another Committee member passed away, too, in the person of Mr. John Davies, 44, Francis Terrace, who for many years gave great service in collecting towards the Contributory Scheme. His work in this way was so outstanding that he was elected a Vice-President for signal service to the Infirmary, the only person who has ever received this distinction. To his memory also we wish to do honour and express our gratitude for his fine work.

Finally, we extend our warmest welcome to our distinguished President for the year, Dr. Miles H. Phillips, now of Fern Hill, Laugharne, who was until quite recently Professor of Obstetrics and Gynaecology at Sheffield University. We are glad that he has chosen to spend his retirement in our county, and we are happy to understand that he has already shown strong and active interest in our Hospital.

We consider ourselves fortunate, indeed, to have for the ensuing year so illustrious a President, and to have associated with the Hospital a name which is world-renowned in that sphere of medicine to which Dr. Miles Phillips has devoted his life.

(Rev.) WALDO LEWIS (Chairman).

## **REPORT ON MATERNITY WORK.**

The following extracts from the County Obstetrician's annual report give one a comprehensive review of the year's work in the Maternity Unit.

The Maternity Unit has had another full year. The work has increased and is still increasing.

The total number of maternity cases (including Abortions) dealt with was 323, and of these 240 were admitted under the Carmarthenshire County Council Maternity Hospital Service Scheme. There were two unavoidable maternal deaths in this total, making a percentage mortality figure of .61 per cent. This figure is a little lower than last year's and compares most favourably with the lowest Maternity Hospital mortality figures. Both deaths this year were County cases, whereas last year one was a County case and the other was not.

The still-birth rate has shewn a sharp drop to just over 6 per cent., and the neonatal death rate remains unchanged at just over 4 per cent.

There were two associated deaths.

Of the admissions about 90 per cent. were abnormal, and included this year again a somewhat high proportion of Pre-eclampsia and Eclampsia.

Ante-natal and post-natal work has increased in amount and intensity. A consultant ante-natal service is naturally developing itself at the Maternity Unit's Clinic. On Clinic mornings cases have come in from as far afield as Rhandirmwyn, Llangennech, and Velindre. They are usually brought in by their district midwife, and the cases may be ultimately admitted to the Maternity Unit if the abnormality requires hospital care.

The gaps of ante-natal care in the past have been the subject of much discussion. We are attempting to fill these gaps in this new Clinic, which is forming so naturally and spontaneously as an adjunct to the department.

The County Infirmary Management Committee are sympathetic to the needs of this new expansion of the work, and in other needs of the Unit they have always been generous in the supply of Staff, instruments, drugs, etc. This attitude has been a constant source of encouragement in one's efforts.

The importance of post-natal care in the prevention of chronic ill-health and even cancer (of the cervix) has been long neglected. We hope to go on in this sphere of post-natal work—one of the pioneers of which—Professor Miles Phillips—now lives in retirement in this County.

During the year, a visit was paid to the Department by the Minister of Health, the Right Honourable Walter Elliot, and by Sir Arthur McNalty, the Chief Medical Officer of the Ministry of Health. Both paid tribute to the appearance of the department and to the work done.

Sister Williams and Sister Goodfellow and their respective staffs have shown a keenness and diligence which is so well reflected in the success of their nursing.

The Blood Transfusion Service has expanded, and in addition to the pioneer members of Carmarthen Toc H and Rover Scouts, this year the Carmarthen Golf Club has supplied another group of members. As far as possible, relatives are called upon to conserve the Transfusion Service, but there are still too many calls on the service, and further volunteers would be welcomed.

J. R. E. JAMES,

County Obstetrician.

# CARMARTHEN COUNTY INFIRMARY CONTRIBUTORY SCHEME.

---

## **Objects:**

- (1) To assist in providing an increased and more assured Income for the Carmarthen County Infirmary.
- (2) To assist persons of moderate means in providing Hospital treatment when necessary for themselves and their dependants.

## **Subscriptions and Privileges.**

The payment of a minimum of 2d. a week entitles the Contributor and his dependants to free treatment and maintenance while at the Infirmary, subject to the conditions herein stated.

“**DEPENDANTS**” means any member of a Contributor’s family ordinarily resident with and dependent on the Contributor.

The following are not included in the benefits of the Contributory Scheme :—

1. Maternity Cases.
2. Treatment for which the State or Local Authority has specifically undertaken to make other provision.

Contributors whose payments are in arrear for three months will no longer be entitled to free treatment unless such arrears be caused by unemployment or illness.

Patients whose circumstances are such as would entitle them to join the Scheme, but who have not done so, shall be liable to be charged the full cost of maintenance while at the Infirmary. Members are not entitled to benefit until a period of six months has elapsed from the time of joining, except new residents in the Infirmary area who join within 3 months of becoming permanent residents, who, if accepted by the Committee as members, are entitled to immediate benefit. A Contribution paid to cover a past period will not, in any case, entitle a Member to immediate benefit.

## **Admission.**

Only such cases for whom Hospital treatment is essential can be accepted as In- or Out-patients.

The necessity for Institutional treatment is to be decided by the patient's own doctor (if a member of the Medical Staff), or in other cases by the doctor for the week, after recommendation by his or her own doctor.

Patients will be admitted as soon as there is an available bed. Urgent cases will be admitted immediately. In all cases it is to be understood that the liability of the Institution is limited to the extent of its accommodation.

### **Income Limits.**

The scheme shall apply in the cases of persons whose income does not exceed the following limits :—

- (1) Single persons over sixteen, widowers or widows without dependants—£3 a week.
- (2) Married couples with no dependent children, and persons with one dependant—£4 a week.
- (3) Married couples with child or children dependent, and persons with more than one dependant—£5 a week.

Contributors to the scheme whose income is in excess of the limits stated above may have their maintenance charges reduced or remitted in case of admission to the Infirmary. But charges in the matter of medical or surgical treatment for such contributors must be arranged by the patient and his or her doctor.

The ordinary rules dealing with the admission and discharge of patients will apply to patients admitted under the Contributory Scheme, and preferential treatment will not be given to such patients.

### **Methods of Contributing.**

- (1) Through places of Employment; arrangements to be made for a weekly deduction from wages.
- (2) By the formation of local groups contributing through a voluntary collector.

Where employees consent to the weekly deduction, their employers should be asked to contribute regularly a further sum. Such contributions can be entered as trading expenses for Income Tax reduction.

The Institution, through its Management Committee, reserves the right of revising, adding to, or terminating these rules by giving six months' notice in the local press.

Governors, Life Governors, Employers of Labour and all are asked to help to make the Scheme a success.

*N.B.—Members paying 3d. per week enjoy the following Privileges :—*

The Management Committee will assist in meeting :—

- A.**—The cost of maintenance in a Hospital incurred while away from home due to accident or sudden illness of such Contributor or his dependants.
- B.**—Maintenance expenses at another Hospital to which such Contributor or his dependant has been sent for further treatment by a Member of the Honorary Medical Staff with the previous consent of the **Management Committee** provided that such treatment can not be given at the County Infirmary.

Payment under **A** or **B** will be made direct to the Hospital concerned up to a maximum of 6/- per day for a period of 5 weeks, or if the cost of Maintenance is 5/- per day or less, the period covered will be extended to 6 weeks.

Maternity Cases, Contagious and/or Notifiable Diseases, and cases for which the State or Local Authorities make provision are not covered.

All correspondence, etc., in regard to the Scheme should be addressed to :—

THE SECRETARY,  
COUNTY INFIRMARY,  
CARMARTHEN.

### THE CONTRIBUTORY SCHEME

Mr. Morgan Thomas, Llanginning, presenting the Report of the Contributory Scheme for 1939, stated that contributions from general members amounted to £3,915 14s. 7d.; from colliery employees, £384 5s. 3d., and railway employees, £322 3s. 3d., making a total of £4,622 3s. 1d. This represented an increase in the general contributions of £378 6s. 4d., a decrease in the colliery contributions of 10s. 10d., and a decrease in the railway contributions of £107 15s. 8d. The decrease in the railway contributions was due to the fact that five payments were made in 1938 instead of four. The executive committee, he said, considered this a satisfactory year's working, which showed a net increase of £269 19s. 10d.

"The Committee has asked me to convey to all workers of the Contributory Scheme sincere thanks for their voluntary efforts, and appeals to them to increase, if possible, their list of members, as such a large number of our members have joined the Forces," added Mr. Thomas.

- 

N.B.—In the above List the qualification of Governors, or the name of the Society, Club, or other Association nominating them, is given. Care has been taken to make the List accurate, but if any errors or omissions appear, the Hon. Secretaries would feel obliged if their attention be called to them. Particularly is it desired to ascertain the *Date* when any Governor was appointed, with a view to fuller information being published in future.
